<b>TBL audio</b>  Hello? Hello, can you hear me? Oh hang on, let me try another room. Can you hear me now? Hello?		SOUND 8 - Tim audio		

<p>Okay as you haven't hung up yet I'm going to assume you can hear me, but I can't hear you. That's probably a fault at my end. Communication is a bit tricky here.</p> <p>This is excellent. Your antenna was a success.</p> <p>Let me introduce myself.</p> <p>My name is Tim Berners-Lee. You can call me Tim.</p> <p>You may know me as the inventor of the internet. At least, the Tim in your dimension is. In my dimension, I was a fool, and the internet was my dream. I suppose I am the same Tim Berners-Lee, but different. My proposals were rejected and the internet never became the incredible reality that you know so well. But I will never give up.</p> <p>I am 65 years old. I was born in London in the flying fifties, studied at Oxford and became a physicist. I have grey-ish brown hair, blue eyes, a charming smile (some say). My mother says I'm good looking. I don't care much for looks.</p> <p>Things changed in 1989. Since then, I have spent my life chasing one dream. Free, instant and decentralised communication. A whole world web.</p> <p>SWISH SWISH INTERRUPTION.</p>

PART 3 - BUILD WORMHOLE					
<a href="#">TBL FAX 9</a> - TBL back from tea break - next steps.	Okay. You’ll need to carry out all the steps. No one gets past step 3 so that’s not a worry.	Tea cup ring on fax paper.	SOUND 10 -Breathing intensifies and heartbeat begins: <a href="https://drive.google.com/file/d/1iuQnOqp5pUs_AEDyZvh_W_ir4HOIrjnP/view?usp=sharing">https://drive.google.com/file/d/1iuQnOqp5pUs_AEDyZvh_W_ir4HOIrjnP/view?usp=sharing</a>	Purple lights, stable.	

<a href="#">TBL FAX 10</a> - Step 1			SOUND 11 - Heartbeat & breathing quickens over sound file as a timer type thing	Colour slowly turning from neon purple, to pastel purple, to white.	
<a href="#">TBL FAX 11</a> - Step 2			SOUND 12 - Heartbeat & breathing quickens over sound file as a timer type thing		
<a href="#">TBL FAX 12</a> - Step 3			<p>SOUND 13 - (Quieter and with other sounds from TBL's world seeping through)</p> <ol style="list-style-type: none"> <li>1. Heartbeat &amp; breathing quickens over sound file as a timer type thing</li> <li>2. Sounds of TBL collecting essence of his dimension</li> </ol> <p>Fax breathing fades</p>		

			Pile objects from your dimension under a table.		
<a href="#">TBL FAX 13</a> - Step 4	<p>(Upon hearing the fax printing) What? The fax never works past step 3. How is this possible?</p> <p>Can you hear that? Is that coming from your world? Protect yourself. Do as he says.</p> <p>This has gone too far. This has never happened before.</p> <p>No, we must know the truth! We have been working on this for decades, we must not quit now.</p> <p>Protect yourself / abort the mission / keep going</p> <p>SHUTS OFF</p>		<p>SOUND 14 - Heartbeat &amp; breathing quickens over sound file as a timer type thing - this is fainter now.</p> <p>Sound bleeding through even more until no heartbeat and breathing left - just TBL sounds.</p> <p>TBL sounds: His breathing- Is it raspy? It is quick? Is he nervous? His shuffling- is he wearing a tin foil/bubble wrap cape? His putting on protection- rustling of the bubble wrap/tin foil cape? His movements- is he pacing? Stock still? Writing equations?</p>		

<p>Step 5 - spoken</p> <p>TBL smells the cake. “The cake’s ready”</p> <p>I can hear you. We are so close now.</p> <p>This final step is the most important.</p> <p>You must now lay the wormhole foundation.</p> <p>I have given you all the tools. Every fax I have sent can be put together like a puzzle.</p> <p>Pick up your fax paper pile and turn it over, so that the page is facing upwards.</p> <p>In numerical order (from low to high or high to low), place each fax in order around the machine in the cleared space.</p> <p>The wormhole is emerging. The foundation is strong. I can feel the vibrations in the air now. We have come so far! This is monumental!</p>		<p>SOUND 15 - TBL monologue 1</p> <p>TBL smells the cake. “The cake’s ready” - Silence. TBL talks straight through machine.</p>		
<p>TBL Monologue</p> <p>Blah blah are you ready? It is nearly time.</p> <p>We will pull the lever together. You may now use the code to unlock it.</p>		<p>SOUND 16 - TBL monologue 2</p>	<p>Puts in cassette. Momentous music begins.</p>
