

Hello again.

Thank you. Your checklist was gratefully received, as is your help.

It was nmere coincidence that this package arrived at your door today. I have chosen you to carry out a top-secret mission o only you can know about it. Only you can hlp me.

I truly believe I can trust you, but I have been fooled before. Unfortunately, I must ask that you undertake five trust exercises before I can divulge any information. The first two exercises have been designed to fool the most sophisticated of robots. Only human operators will be able to pass. The following exercises will test your commitment and determination to the cause.

For your first trust exercise, yu need to dial a code into the number pad on the fax machine. This will give you level one clearance. You will, of course, need level five clearance before we can carry out the mission.

I believe in you. I know you can do this.

Read carefully to find the missing text that makes up the code. The missing links will combine to form three digits. Dial this number and wait for further instruction.

Yours,

TBL

Ps. Place this fax onto the dedicated fa paper area

CODE = ONETWOSIX
