

Hello again!

The cake is in the oven, the fax machine is ready! This is going swimmingly!

I hope you are rested, as we are now ready to begin the build. I will be with you every step of the way. I am closer to you now than ever before.

There are five steps to open the wormhole. The steps are simple, and they may challenge you. But, what is success without a little challenge?

Please take each step seriously. We must mirror one another in our set up. While you are building your space, I will be building mine - in parallel. Parallelity is key.

Please also be aware that this part of the mission is time sensitive. The fax generates enough energy to withstand each step, but no more. You will have only ten minutes to carry out each step to the best of your ability. But please, do not stress. Breathe to the tune of the fax. Take care. And remember, whatever you do within the time limit will be the right choice.

Prepare yourself.

Breathe.

Step One will begin with the next fax.
