

YES. I knew you weren't a robot! I could sense it through the fax... Your humanity.

We only have three exercises remaining. These are more a matter of understanding you and registering your commitment to the cause. Though, I do appreciate you do not, yet, know the cause.

Bear with me. This will take no longer than the time it takes to make cake batter!

Please turn to page XX in your manual. You will find a questionnaire. You must each complete this questionnaire separately and input your results in the table below. When completed, send this back to me via fax.

Once received, I will be able to grant you level three clearance and proceed to the next step.

Yours,

TBL

Ps. reminder: fax paper in designated area, thanks!
