

### STEP THREE

We need to increase the mass at the base of the portal opening.

#### DIAGRAM

A higher mass increases the portal's stability. The mass needs to be made up of the essence of your dimension. This will lock the two portals openings to our worlds and reduce the risk of interdimensional slippage once the portals are open.

#### DIAGRAM

### PART ONE

You must find the essence of your dimension. Consider items in your space that represent your dimension, and place these under the fax apparatus. This entire space must be filled with the essence of your dimension. Once full, begin PART TWO.

### PART TWO

The final item to complete the mass must be sacrificial.

Nominate someone in your group now.

This person must carry out the sacrifice while another person reads the below instructions.

1. Step forward one full footstep.
2. Turn 180 degrees in a direction of your choice.
3. Take one step to the right and half a step forward.
4. Raise your right arm, prepare your finger for pointing.
5. Point your first finger.
6. You must sacrifice one item before your pointed finger to gift to the fax apparatus. If there is no sacrifice to be found in this area, the sacrifice that you make will be the right choice.
7. Carefully place this item under the fax machine's eyes.

Await STEP FOUR.
